Abduction & Ransom

In certain areas of the world, abduction is a growth business with recently published figures suggesting that over the past six years abductions in post conflict and challenging locations have increased by 100%. As expected these locations include: Nigeria, Democratic Republic of Congo, Iraq, Afghanistan, Somalia, Libya and Pakistan. Although cases in the UK are low compared to these countries, there was a 200% increase in London alone during the last financial quarter.

Reed Carlton Intelligence shows eastern European gangs snatching opportunist targets for a quick ransom turnaround. These are often children and family members of high net worth individuals. The abductors look for a same day transaction, the cash handover takes place and the victim is released unharmed. The authorities rarely learn of these cases.

Our Sensitive Projects Director is a former member of the Special Boat Service (UKSF) who leads the Kidnap & Ransom teams comprising only of fellow ex Special Forces operators and former government intelligence officers. The teams are standing by to deploy anywhere in the world within 24 hours of being instructed, they know and understand kidnappings, they know the environments they take place in and they know the mindset of the 'snatchers'.

HENNESSY BEAUTE DU SIECLE LIMITED EDITION

Французский дом Hennessy представил эксклюзивный сорт коньяка, выпущенный в честь 100-летнего юбилея шестого поколения династии в бутылке Finest Spirit & Cigars в аэропорту Амстердама. Он купажирован из более чем ста лучших коньяков (самый старый из них — урожай 1907 года). Он представлен в уникальном хрустальном корпусе, который является частью коллекции Hennessy. Он выпущен в ограниченной тираже.

Cortier Montre de Poche Grande Complication Squelette — это уникальная модель-скелетон, напоминающая часы Луи Картье 1930-х годов. В одном корпусе объединены три осложнения — турбийон, вечный календарь и орнаментальный хронограф. Резерв хода — 8 дней. Эстетика — выше всех похвал.
